

Cornell notes

Capture ideas in Notes. Afterwards, add cues or questions, then close your notes and try answering them.

Topic and date

What am I studying today?

Cues and questions

What question would help me bring this idea back?

Notes

Key ideas, explanations, examples and connections in my own words.

Brief summary

What are the main ideas I want to carry away?

Next recall

When will I return to my questions and try them without notes?
